### EXPLANATORY NOTES

#### Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications, Australia* (1101.0) of the Australian Bureau of Statistics, which lists Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (Canberra Office) or two days (State Offices).

2. Significant occurrences in ABS Publishing are highlighted in the section Publishing News which follows the list of publications issued during the month. Publishing News contains brief descriptions of the contents of new publications, describes changes in ABS publications and shows other information of interest to users of ABS publications.

#### Publication prices

3. Two prices are shown for each priced publication. The first price given is the 'over the counter' price while the second includes packaging and postage at ordinary rates within Australia. Overseas clients should add 10 per cent of the second price to meet the cost of overseas surface postage. Airmail rates are available on request.

4. Where no price is shown the publication is free.

#### Mailing list service

5. Clients who wish to receive free or priced publications on a regular basis may use the ABS computerised Publications Mailing List (PML) Service. Further details and order forms are available from any ABS office.

6. Clients (or subscribers) who already use the PML Service and who wish to amend their requirements should quote their account number when contacting ABS. The account number is shown at the top left hand corner of the address label used to despatch publications to clients.

7. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

#### Statistical information service

8. Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries from clients on available official statistics, including statistics not published for economic reasons. Unpublished statistics cover a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

9. In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge may be made.

#### Electronic services
